HANDMADE BOTANICAL SOAPS

ORGANIC extra virgin olive oil, organic palm oil, and organic coconut oil, the three pure botanical ingredients that form the base of our luxurious private-label soaps. Steam-distilled essential oils, organic herbs, spices, and flower petals are added in precise combinations to give the bars their complex aromas and alluring colors.

EACH HANDMADE BAR possesses individual character that reflects its artisan roots and craftsmanship unlike a factory-produced commodity. We use a small-batch, cold-process method of soapmaking leaving intact many of the nourishing properties of the delicate ingredients. The result is a firm, long-lasting bar with richly foaming lather and retained vegetable glycerin which gently moisturizes as it cleanses.

OUR SOAPS, with their rich natural hues and aromas, create beautiful retail displays, unique gifts, and standout promotion pieces. Our soapmaker has created a variety of different bars which highlight the stunning diversity of the plant kingdom, and naturally complement each other. To see our current offerings please visit our website or contact us.

CUSTOM PRIVATE LABEL SOAP is our specialty at Sapothecary, as is our ability to easily extend your brand into artisan quality organic soaps. Aside from our essential-oil fragrance combinations, we offer many options for the discerning private label client looking to distinguish their brand. Each luxurious, one-of-a-kind bar can be hand-stamped with your logo or hand-beveled to produce a smoother finish. Custom-blending is available for large orders for those who wish to create a proprietary soap.

We offer a **RANGE OF BAR SIZES** designed for a variety of uses.

Our full-sized Spa and Shower bars are favored by retail clients. The Hotel and

Personal sizes are ideal for amenity soaps or promotional items

and our smallest Sample bar is wonderful as a

wedding favor or as part of

a multi-pack. For specific

bar dimensions please

visit our website or see

our order form. Large

orders can be custom-cut.

TO COMPLEMENT the soaps we provide carefully designed packaging and display options, each of which is fully recyclable or biodegradable. All selections are sourced from the most ecologically sustainable materials possible,

an important consideration for the rapidly expanding market for green consumer products. Our packaging and soap is sold wholesale-only by the case and can be ordered via web, fax, phone or email. Most orders are custom-made and subject to a four to six week lead time, allowing the soap to fully cure.

HANDMADE BOTANICAL SOAPS

We strive continually to be ever more

ECOLOGICALLY AND SOCIALLY

SUSTAINABLE. From our ingredient choices

to our business practices to our production floor, we

are mindful of the potential, unintended consequences of our

actions. This process of constant improvement matters to us personally, as

it does to a growing number of consumers who are aware of both ecological and health

concerns. Buyers today are turning to green personal care products and are using sustainability as a key purchase criterion.

Sapothecary, with our private-label options, specializes in extending your brand into this expanding market.

We look forward to creating artisan soaps which will delight your customers and distinguish your brand. Please contact us via phone or email for more information on the various options we provide or for any questions not answered by our website.
